

Bee Health Day

On 10th June, NBKA is hosting an all-day Bee Health training day at Duston Community Centre, for beekeepers at all levels of experience.

This is a unique opportunity to learn more about how to keep your bees safe and healthy, and to keep up to date with the latest developments on the Asian hornet, varroa, and other threats to your bees.

The day will be led by Southern Regional Bee Inspector Julian Parker, with 3 seasonal bee- inspectors, including our own Gordon Bull. It will start at 10am and finish at 5pm.

The morning will consist of presentations in the main hall, and the afternoon will be split into 4 rotating workshops, on AFB/EFB, the Asian hornet, the small hive beetle, and apiary hygiene.

Duston Community Centre is a pleasant and comfortable venue, with a café bar open all day.

The day costs £5 per head, but is free charge to NBKA members.

To book a place, email trainingofficer@northantsbees.org.uk, saying you want to book, or text Graham Padden on 07721 094953. You will then be sent a registration form, with further details of the day, and directions.

Graham Padden, NBKA Programme Secretary

- Find out how to keep your bees safe and healthy
- Learn how to recognize problems and what to do about them
- See actual AFB and EFB infected combs
